	Avatar	That's not terrible advice, actually.			Pensive

	Vega	A grumpy little Augurey told me that you're in need of some help of the geographical persuasion.			Pleased

	Vega	You could say that.			Laughing	
else	Avatar	You can use wandless magic ? Flump was right when he said you were interesting.			Surprised	
	Vega	Aw, did he really say that about me? He's such a softie.			Laughing	
	Vega	We can talk more about that later. It's my understanding you're on the precipice of a great discovery .			Pleased	
	Avatar	That's right! I need to figure out exactly where a certain foxglove meadow near the Forbidden Forest is.			Pensive	
	Avatar	Once I do that, I may be able to locate a cursed quill that's been causing a lot of issues!			Determined	
	Vega	Then we won't waste another moment!			Happy

		PROJECT: Find the Foxglove Meadow				
	Avatar	Explain	Avatar	The foxglove is being used to make this unique ink used on forged items.		
	Avatar	Recall	Avatar	I know from Professor Snape that I need to look near the Forbidden Forest.		
	Avatar	Notice	Avatar	Vega seems really enthusiastic to help me! They must love geography.		
	Vega	Take Note	Vega	Foxglove likes to grow in acidic soils, which can be achieved with fertiliser use.		
	Vega	Discover	Vega	I never went to a wizarding school! I got my first wand when I joined the ROCC.		
	Vega	Learn	Vega	My last assignment had me at a nasty cursed castle.		
	Vega	Thank	Vega	If you'd like, I could copy this map for you! Nothing beats a physical map.		
	Map	Examine	Vega	You're looking for a meadow. So, what might		

				that look like on a map?		
	Map	Discern	Vega	If we're looking near the Forbidden Forest, that would be here on the map.		
	Map	Notice	Avatar	There's a lot of handwritten notes on this map. Did Vega write them?		
	Map	Look At	Avatar	Vega conjured this whole table <i>and</i> map wandlessly. They must be powerful!		
		PROJECT END				
	Avatar	All right, so I know I'm looking near the Forbidden Forest...			Pensive	
	Avatar	Based on what you said, I'm <i>also</i> looking for somewhere close to a town , since foxglove likes acidic soil .			Pleased	
	Avatar	Acidic soil can be achieved with fertiliser — so, it sounds like someone may be growing the plant .			Confident	
	Vega	I should mention that rain and plants themselves can also cause acidic soil.			Pensive	
	Vega	But if foxglove is being used to make ink, you'd need a lot of it. I'd say you're on track with your fertiliser theory .			Pleased	
	Avatar	Right, and I also know that the foxglove is growing in a meadow .			Pensive	
	Avatar	And now I know what those look like on maps, thanks to your guidance!			Happy	
	Avatar	So, based on all of that information, the meadow should			Pensive	

		be...				
	Avatar	Here!			Determined	
		<i>Avatar points to a spot on the map on the edge of the Forbidden Forest, somewhat near Hogsmeade, that's completely clear (description only for if we're visualizing the map, otherwise Avatar can just point at the map without us seeing where). Vega grins and claps.</i>				
	Vega	That's exactly where it is, ::FirstName::.			Happy	
	Avatar	Wait a moment— you're a geography expert! Did you know where it was this whole time ?			Suspicious	
	Vega	Ah, well... yes. I knew as soon as you said it was a foxglove meadow near the Forbidden Forest .			Pleased	
	Vega	I think it's important for people to understand the world around them so they can better navigate it.			Pensive	
	Vega	Adventure Tip #5: Knowledge is power .			Determined	
	Vega	If you're able to identify what's around you, you're able to use that to your advantage when magic may fail you.			Pleased	
	Avatar	I suppose I hadn't thought of it that way...			Pensive	
	Avatar	So, rather than show me outright , you turned this into a teaching moment!			Pleased	
	Avatar	Thank you , Vega. I appreciate what you've taught me.			Happy	
	Vega	I'd be more than happy to share more with you in the future!			Excited	
	Vega	For now, though, you ought to get a move on if you want to get to that meadow anytime soon.			Pensive	
	Vega	I'll tell Crescent about your success.			Pleased	

	Avatar	You... call Flump by his first name?			Disbelief	
		<i>Vega laughs.</i>				
	Vega	You have more important things to worry about than what I call him.			Amused	
	Avatar	Uh, right...			Pensive	
	Avatar	Thanks again for your help, Vega.			Pleased	
	Avatar	It's time I go investigate that foxglove meadow with Callum!			Determined
